## PROFESSIONAL SUMMARY

Full-Stack Engineer with 4+ years of experience building and shipping high-performance, accessible web and mobile applications end to end. Strong in React, Next.js, React Native, and TypeScript on the frontend, and Node.js, Express.js, PostgreSQL, and MongoDB on the backend. Experienced in designing REST API integrations and data flows, building scalable component systems, setting up CI/CD and automated testing, and leading technical delivery through code reviews and mentoring. Effective at turning product requirements into maintainable architecture and reliable user experiences across the whole stack.

## PROFESSIONAL EXPERIENCE

### Senior Full-Stack Engineer — Tekxai

Mar 2023 – Present

- Deliver responsive web and mobile products across the stack using React.js, Next.js, React Native, TypeScript, Node.js, and Express.js.
- Build reusable component systems and dashboard workflows with a focus on accessibility, performance, and long-term maintainability.
- Design, integrate, troubleshoot, and optimize REST APIs and application data flows, working closely with backend engineers and databases such as PostgreSQL and MongoDB.
- Lead technical delivery for mid-size projects through sprint planning, code reviews, architecture decisions, and mentoring junior developers.
- Implement CI/CD workflows and automated testing practices (unit, integration, and end-to-end) to improve code reliability and support faster release cycles.
- Containerize and ship applications with Docker, collaborating on build and deployment pipelines.

### Full-Stack Developer — Azi Solutions

Apr 2021 – Mar 2023

- Started as a Software Engineering Intern, progressed to Associate Software Engineer, and later moved into a Full-Stack Developer role.
- Developed cross-platform interfaces with React.js and React Native, created reusable components, integrated REST APIs, and optimized application performance.
- Worked with Node.js, Express.js, and SQL and NoSQL databases to support application features and data needs.
- Built user interfaces with Material UI, Tailwind CSS, and Bootstrap, and migrated frontend applications to Next.js.
